

What you should know about my office

Whether you are an adult who wants to have a beautiful smile and healthy bite, or the parent of a child whose teeth need straightening, you need to select a competent, experienced and personable orthodontist which can be difficult. You will want to choose a professional who strives to provide the care and service you expect to receive in a private office in Brownstone Brooklyn Heights.

I remove the braces when you say: "My teeth look great Dr. Ted."

I have treated more than 4500 patients at my office in Brooklyn Heights during the past 25 years. I have held positions at LICH hospital and was the Chief of Orthodontics at St. Luke's-Roosevelt Hospital where I have been a staff member for 22 years.

I am the only orthodontist in the NYC area who also holds a doctorate in Physical Anthropology (Ph.D., U. of Pa., 1971) in the field of Child Growth and Development.

So, no matter what the basis of your referral to me, be it a dentist, current patient, friend, insurance plan or Yellow Pages, you will receive a quality of care and service reflecting 30 years of experience in caring for adults and children.

Dr. Ted has been a member of the American Assoc. of Orthodontists since 1971.

My approach to treatment is to always let you know what I plan to do well before I ever do it. That way you are never surprised by something you don't understand. I am very concerned about any discomfort you experience and my goal is to always keep you as comfortable as possible.

"Nobody Does it Better"

Master Smile Maker

Dr. Ted Rothstein

Specialist in Orthodontics for Adults and Kids

35 Remsen St., Brooklyn, NY 11201

718 852 1551

Fax: 718 852 1894

Website: <http://www.drted.com>

I've worn braces myself and had fillings and cleanings and even gum surgery. I know what it is like to be afraid of the dentist/orthodontist. I will treat you with the same gentle care as I would give a beloved member of my family.

My office is in residential, downtown historic Brooklyn Heights. The community is safe and well lit, and it is not surprising to see tourists from many countries visiting this pleasant community.

See
Them
Not!

Lingual braces go on Behind-the-Teeth and are great for patients who have big issues with visible braces. Clear braces are a delight when you need to economize.

We accept payment of the fee by cash, credit and debit cards, and check by special arrangement. My office is 2-3 blocks from the 2,3,4,5,N and R subways.

Patients with emergencies or discomfort will be responded to promptly. Emergencies during patient-care hours are seen immediately to provide relief, and I live just minutes from the office.

Every patient receives my home telephone number.

Convenient location, hours and a cordial staff make you smile.

You will also be pleased to know that in most cases. I provide clear, transparent braces and tooth-colored wire especially for teenagers and always

for adults who find them most pleasing to the eye. In addition, I have been providing my adult patients who might otherwise refuse treatment the option of **LINGUAL** braces "See Them Not" (behind-the-teeth) since they were introduced more than 16 years ago and now the new Invisalign ("No-braces") braces.

Finally, other related services include "power teeth whitening" in under one hour with the Apollo 95 powered light process; anti-Snoring devices and Orthodontic jaw-wiring for individuals who prefer this method for losing weight.

I look forward to meeting you.

Dr. Ted ☺

Don't Choose Me To Be Your Orthodontist Because:

- ☺ I'm on the staff at St. Luke's-Roosevelt Hospital, or because I have doctorate in Anthropology or
- ☺ that I'm a member of the American Association of Orthodontists and an EXPERT IN LINGUALS.

Choose Me Since:

- ☺ I provide patient-care hours for working people: 7:00am - 6:30pm and alternate Saturdays.
- ☺ Your treatment is provided by one doctor -- me. and I understand your fears and apprehensions.
- ☺ **ABOVE ALL**, I have treated 4,500 patients in the 25 years that I am Brooklyn Heights' leading orthodontist. Finally, choose me as your orthodontist, for your treatment is completed only when you say: "Dr. Ted, my smile looks great."

Remember this:

"Experience and reputation really count when it comes to providing patient care."

A beautiful smile not only looks good it feels good.
